SamITHealth — Capabilities & Solutions

CMMI Level 5 • HIPAA Compliant • RCM, HCC, CDI, APIs & Payer Solutions

Executive Summary
SamITHealth is a CMMI Level 5 healthcare IT partner delivering enterprise-grade Revenue Cycle Management (RCM), HCC coding, Clinical Documentation Improvement (CDI), payer solutions, and secure API integrations. We combine process rigor, certified clinical talent, and engineering to drive measurable results.

Core Services
• **Revenue Cycle Management (RCM)** — End-to-end lifecycle, denial prevention, AR recovery, claim optimization.
• **HCC & Risk Adjustment** — Abstraction, RADV readiness, RAF optimization and submissions.
• **Clinical Documentation Improvement (CDI)** — Concurrent reviews, provider education, query management.
• **APIs & Integrations** — Epic/Cerner connectors, ETL pipelines, audit logging.

Why SamITHealth
• CMMI Level 5 maturity: repeatable, optimized, measurable delivery.
• HIPAA-compliant operations and SOC-like controls.
• 24/7 US + India delivery model and named teams.
• Proven results: reduced AR days, denial reduction, RAF uplift.

Pilot Offer
Complimentary 30–60 day pilot to demonstrate impact on AR, denials, and RAF capture with clear KPIs and reporting.
